

Ход работы:

Скачать и установить Apache

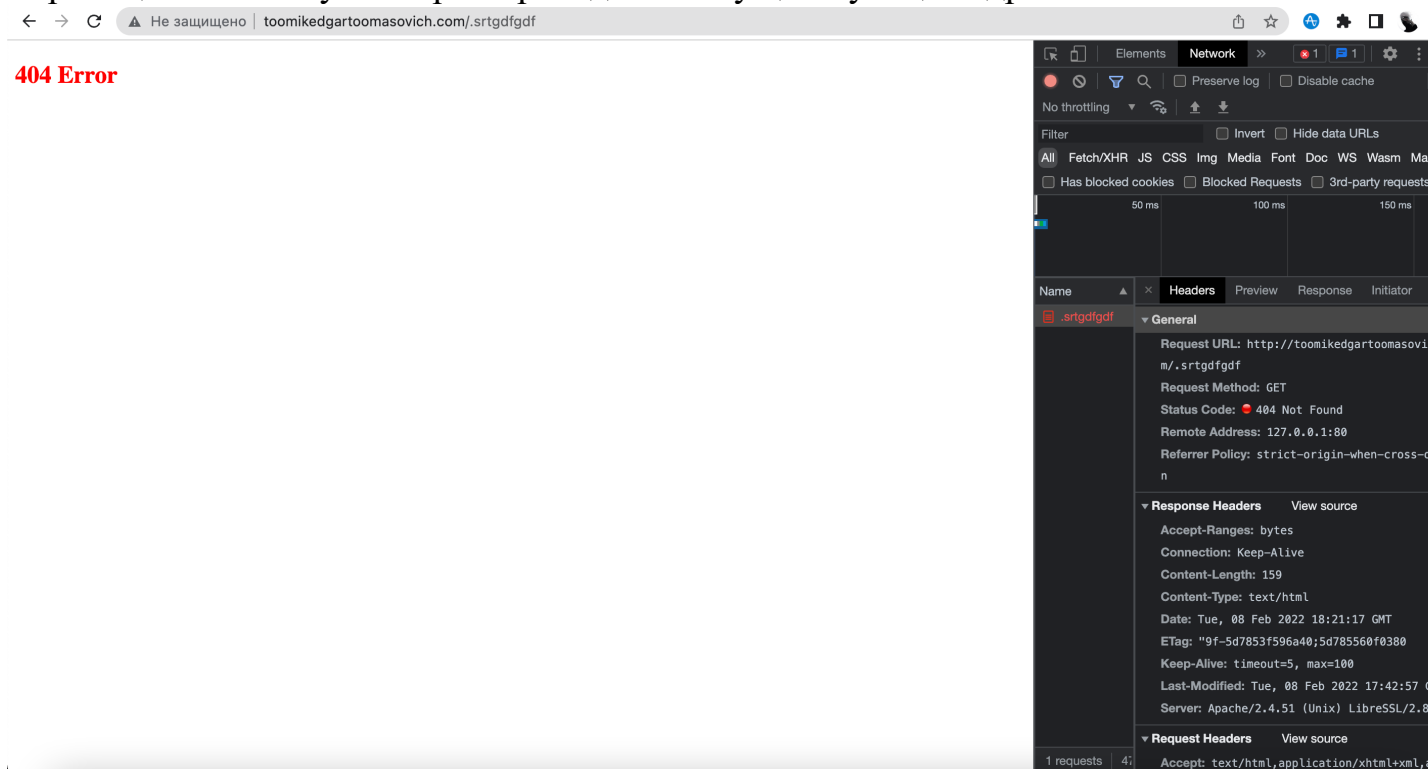

Поднять хост <http://toomikedgartoomasovich.com>

Добавить 3 страницы:

1. Страница с любым текстом index.html

2. Страница на ошибку 404 при переходе на несуществующие адреса

3. Страница с запрещённым доступом 403.html, выдаёт ошибку со статусом 403

The screenshot shows a web browser window with the address bar displaying "Не защищено | toomikedgartoomasovich.com/405.html". The main content area of the browser shows a "403 Error" message. The Chrome DevTools Network tab is open, showing a single request to "405.html". The request details are as follows:

Section	Details
